

Oxygen gas sensor -No influence from acid gas

Oxygen Gas Sensor - CO₂-Resistant

Features

- High performance with long-term stability [Fig. 1]
- Unaffected by acid gas such as CO₂, H₂S (using unique acid electrolyte)
- Low cost

Specifications

Principle	Galvanic cell type gas sensor
Model	OC-6B
Detectable gas	Oxygen
Detection range	0~100%
Response time (T ₉₀)	< 10 seconds
Operating temperature	-10°C~45°C
